ABOUT US

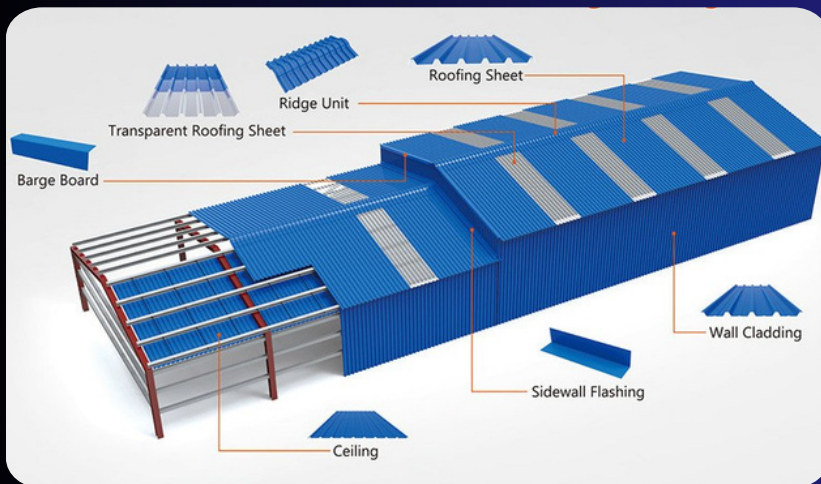

Our Mother Company **[DILIP ENGINEERING WORKS]** established in the year of **2013**, The company having vast experience in Metal Fabrication Work & Roofing Solutions and also the company Connected with lot of clients.

That's why In the year of **2022** we started the company with new name & updated visions **[DM FABTECH]**. The DM-FABTECH is not only the company name, it's our identity. Because we Combine Fabrication & Technology.

We Design & Manufacture A Pre-Engineered Building Shed, Conventional Factory & Residential Terrace Shed. Also we Supply all Roofing Sheets & Accessories. We had specialized Manufacturing Unit which incorporates supply of Roofing sheets and other Roofing accessories. Every Roofing Shed are Designed by our professional Team. Managing the company to cater the increasing needs of customers for durable, affordable and versatile Metal Building System.

AREA OF EXPERTISE

PEB SHED

The Pre-engineered building system is one of the fast growing segments globally. It has all the attributes of what the modern life-style demands, i.e., speed, quality and value. This concept has many advantages over the conventional steel building (CSB) concept of building with roof truss. Pre-Engineered buildings are easy to build, delivered and erect anywhere with low rise structures.

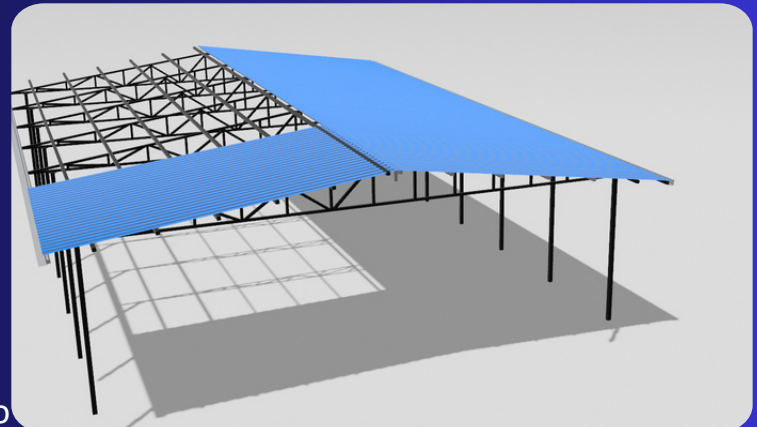

There are many applications for pre-engineered buildings, it can be automobile

garage to aircraft hangar, bakery to dairy farm, auditorium to hospital and factory to community hall.

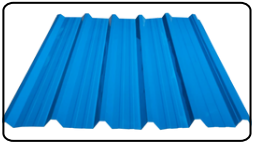

Building Terrace Shed

We had Also expertise in manufacturing of Residential Sector Terrace Shed for our valued clients. The sheds Manufacture by our skilled team are thoroughly checked on the parameters like dimensions, sturdiness, and durability. These are provided as per the set Society norms and guidelines. These sheds from our side are provided in a number of different sizes in order to

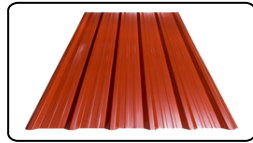

fulfill the varied need of our customers. Our Technicians enabled us to provide the desired product exactly as per the customer's given specification within the stipulated time.
